

We, at Best Time RV, try to exceed recommended safety levels and do not believe in just meeting the bare minimum standards when it comes to protecting our customers and their children.

We know that children's safety is important and that is why we strive to make available to our customers the most up to date and what we consider one of the best child safety devices available on the market.

Our clients can rent child seats from Best Time RV for \$39 (plus sales tax).
This will bring them peace of mind while on the road.

It is the client's responsibility to attach child seats to the rental vehicle because our staff is legally not allowed to advice attachment procedures of safety devices or physically attach any child seats for our clients.
